

| Date            | Start Time (24h) | End Time (24h) | Duration (hours) | Week Subtotal | Week Overtime | Notes  |
|-----------------|------------------|----------------|------------------|---------------|---------------|--|
| <b>Week 107</b> | <b>5/13</b>      | <b>5/19</b>    |                  |               |               |  |
| 2023-05-13      | 12:30            | 14:00          | 1.5              |               |               | Research on cache; Impliment LRU Cache for EWS server; End-to-end tests; Fix bugs with wrong content type in response; Deploy EWS as a system service to reduce downtime; Status update  |
|                 | 21:15            | 21:45          | 0.5              |               |               | Cache for content type and make cache work for preview; Fix h.country  |
|                 | 22:45            | 0:45           | 2                |               |               | Mapping special domains in frontend. End-to-end testing; Batch registration of special domains, premium domains, and restricted keyword domains; Batch creation and setup of h.country subpages for individuals  |
| 2023-05-14      | 14:00            | 15:00          | 1                |               |               | Certificate renewal and management implementation; Refactor letsencrypt certificate generation and add non-wildcard fast generation options  |
|                 | 16:00            | 18:30          | 2.5              |               |               | (Continued) Refactoring GCP certificate management logics, add certificate custom id and deletion of map entries   |
|                 | 22:00            | 23:00          | 1                |               |               | (Continued) End-to-end testing; Listing and filtering certificates   |
| 2023-05-15      | 14:00            | 14:30          | 0.5              |               |               | Q&A on Substack and recovery matter; Burner deployment; Debugging several preview, redirect, and registration issues   |
|                 | 20:00            | 21:00          | 1                |               |               | Certificate generation scheduler, exponential backoff with auto retry and logging, database schema, api for job lookup and schedule; Refactor LE and GCP certificate management apis   |
|                 | 22:30            | 1:30           | 3                |               |               | (Continued)  |
| 2023-05-16      | 13:00            | 13:30          | 0.5              |               |               | Add WalletConnect to /manage to enable multisig use; Experiment with latest wagmi, revert back, fix various hidden bugs with old version of wagmi re: wallet connect, and overriding rpc setting   |
|                 | 15:00            | 15:30          | 0.5              |               |               | (Continued)  |
|                 | 22:30            | 23:30          | 1                |               |               | (Continued)  |
|                 | 23:45            | 1:15           | 1.5              |               |               | Fix bugs with SSL certificate generation scheduler, debug and test end-to-end; Deploy async SSL certificate generation, write usage and examples, discussions  |
| 2023-05-17      | 9:30             | 10:00          | 0.5              |               |               | Research and evaluate trademark infringement issue, consult with counsel   |
|                 | 10:45            | 15:45          | 5                |               |               | (Continued) and fix whatsapp preview, https redirect in load balancer; Evaluate and debug wagmi and wallet connect issues; Remove wagmi, reimplement EWS with raw MetaMask and WalletConnector integrations; Add unrestricted mode for EWS; Fix root page title in URL and refactor SLD helper functions; Test end-to-end and deploy |
| 2023-05-18      | 1:45             | 3:15           | 1.5              |               |               | Review and analyze Tranquil Finance contracts, audit reports, documentations, and deployed contract states and values; Discussion debt resolution mechanisms   |
|                 | 9:30             | 10:15          | 0.75             |               |               | (Continued) and detailed review of liquidation and repay functionalities; Discussion on implication and issues of purchasing debts   |
|                 | 11:30            | 11:45          | 0.25             |               |               | (Continued)  |
|                 | 12:30            | 13:00          | 0.5              |               |               | Link preview support for notion and embeddly; Deploy and testing end-to-end; Debugging for cache busting and corner cases  |
|                 | 18:45            | 20:15          | 1.5              |               |               | Research and discussion on URS process, defenses, burden of proof  |
|                 | 21:30            | 22:30          | 1                |               |               | Demo site configuration, disclaimer setup, addressing potential legal issues   |
| 2023-05-19      | 0:00             | 1:30           | 1.5              |               |               | Review and discuss case laws related to trademark use in domain names, injunctions and relinquish standards  |
|                 | 17:45            | 18:15          | 0.5              |               |               | Research on renewal policies, rights, and control mechanisms   |
| <b>Week 108</b> | <b>5/20</b>      | <b>5/26</b>    |                  |               |               |  |
| 2023-05-20      | 23:00            | 0:15           | 1.25             |               |               | Detailed review and feedback for Substack connector  |
| 2023-05-22      | 12:30            | 13:00          | 0.5              |               |               | Discuss namecheap registration issues with namecheap and inaming, and explore alternatives   |
|                 | 21:30            | 23:00          | 1.5              |               |               | Continued review and explanation for Substack connector; Review domain management user experience analysis; Discuss Tranquil mechanisms; Compare alternative registrar providers   |
| 2023-05-23      | 11:30            | 12:00          | 0.5              |               |               | Recovery stats verification and recompute burner stats   |
|                 | 23:30            | 0:00           | 0.5              |               |               | Examining Tranquil and Compound contract   |
| 2023-05-24      | 11:30            | 13:00          | 1.5              |               |               | Discussion and planning on spreadsheet product details   |
|                 | 15:00            | 16:00          | 1                |               |               | Discussion on recovery matters, DeFi implementations, and Tranquil contract capabilities   |
|                 | 23:00            | 0:00           | 1                |               |               | Detailed review of liquidation related contract states, parameters and implementations   |
| 2023-05-25      | 13:45            | 15:00          | 1.25             |               |               | Setup 1.country Stripe processor, Apple Pay, and crypto payment account; Review of AAVE, Compound, MakerDAO differences, performance, statistics;  |
|                 | 19:15            | 19:45          | 0.5              |               |               | Sync with John on spreadsheet product, recovery analytics, and DeFi; Review update notes and progress  |
| 2023-05-26      | 23:30            | 0:00           | 0.5              |               |               | (Throughout the day) DeFi research, lending protocol analysis and discussion; CDN configuration for root .country websites; Speed tests, analysis, and improvement discussions;  |
|                 |                  |                |                  |               |               |  |
