Date	Start Time (24h)	End Time (24h)	Duration (hours)	Week Subtotal	Week Overtime	Notes
Week 96	**2/25**	**3/3**				
2023-02-25	16:00	19:00	3			EAS client upgraded foundational structure setup (typescript, wagmi, ethers), initial implementation, api libraries, and fixing various server and contract bugs
	19:30	23:30	4			(Continued)
2023-02-26	22:30	0:00	1.5			Finalize letsencrypt certificate generation integration; Activate and deploy zone fast reload in CoreDNS; Activate letsencrypt in production
2023-02-27	0:00	0:30	0.5			letsencrypt certification generation flow production-activation monitoring and analysis; Datastore permission configuration for dashboard view of domain registration time and history (Abhinav); Feedback on exporting data (Abhinav)
	12:30	13:00	0.5			Analyze server log and provide feedback on frontend request failure / response error (Frank)
	13:30	14:00	0.5			Refine EAS frontend; Review server logs; Feedback on domain registration end-to-end speed (Abhinav) and further frontend errors (Frank)
	17:30	18:00	0.5			Feedback on NFTKey's requirement on ERC721Enumerable (Abhinav); Review NFTKey; Q&A on certificates, ENS contracts, and flow of funds (Abhinav)
	18:30	19:00	0.5			Review ENS contracts; Feedback on proposed contract changes and function uses (Tej)
	21:30	23:30	2			Fix various contract bugs and redeploy in local and mainnet environments; Refine frontend
2023-02-28	12:00	12:30	0.5			Review and debug various errors after switching over to letsencrypt for certificate generation
	13:00	14:00	1			Resolve several EAS frontend issues; Fix various bugs during end-to-end testing while implementing EAS client
	15:30	16:30	1			(Continued)
	20:00	23:30	3.5			Finalize EAS client; Fix various bugs; End-to-end debugging and deployment in production; Enabling EAS for selected domains; Feedback on proposed contract changes and use of ChainLink (Tej, Artem) and burning feature (Abhinav); Feedback on reading DNS records (Alex); Discussion on EAS next steps, potential tests, and debugging .country purchase issues (John)
2023-03-01	0:30	1:00	0.5			Debugging issues of unavailability of short names and related ENS contract;
	15:30	16:00	0.5			Enabling Cloud CDN and compression; Feedback on proposal to extend DC contract as NFT and compatibility with marketplace; Reconfiguring some reserved domains' DNS and NS; Instruction to registry operator on new pricing
	18:30	19:00	0.5			Redeploying latest RegistrarController with fewer limitations, test end-to-end, and update DC contract
	20:30	22:00	1.5			Discussion with Abhinav regarding product issues, NFT capabilities, marketplace integration, error handling, and frontend issues
2023-03-02	11:00	11:30	0.5			Contract flattening and verification (Julia); Domain debugging (Abhinav) and bug fix (Artem); Contract change feedback (Yuriy)
	15:00	16:30	1.5			Review self-hosted mail server design and provide feedback (John); Further contract verification (Julia); Burner BUSD/1BUSD merge and display error bug fix; Statistics verification
	18:45	19:45	1			Instructions on domain NFT metadata and image implementation as well as DC simplification (Abhinav, Yuriy); Investigate issues with contract verification of TLDNameWrapper (Julia)
2023-03-03	12:45	13:15	0.5			Q&A on NFT and contract change (Abhinav); Planning and Discuss TODOs (John, Yuriy)
	19:00	20:00	1	26.5		Discussion of DC contract change, overall NFT integration goals and TODOs, and confirm details (John and group)
Week 97	**3/4**	**3/10**				
2023-03-06	14:30	15:00	0.5			Discuss DC contract changes, personnel and division of work, and support required (John)
	15:30	16:30	1			Discuss frontend interactions, contract structure and placement, DC revenue multisig, and Q&A (Frank, Abhinav)
	17:30	18:00	0.5			Review dot-country PR #3
	23:30	0:00	0.5			Review and refine new dot-country service contracts, comment on PR #3 and #4
2023-03-07	0:00	3:30	3.5			(Continued)
	9:30	10:30	1			(Continued)
	11:00	11:30	0.5			Review and comment on ens-deployer contracts (#8) (John)
	14:00	14:30	0.5			Refine ens-deployer PR #8 and #9
	16:30	18:00	1.5			Discuss, review and deploy new pricing for various contracts and explain underlying mechniams
	22:30	0:00	1.5			dot-country ToS and privacy policy review and comment; Separate API for purchase and certificate generation; Improve server logging mechanisms; Debugging errors in registering special domains

open development - aaron li - https://github.com/polymorpher

Date	Start	End	Hours	Total	Notes
2023-03-08	0:00	3:00	3		Bug fixes in registrar-relay; Adjust contracts for ERC721Enumerable and NFT metadata service comformity; Debugging invidual registrations and Q&A (Abhinav); /cert API test and usage explanation (Abhinav); IAM permission review, web vital issue review, manual profiling, recommendation, caching policy review and adjustments
	12:30	16:00	3.5		On-site Q&A and debugging to team in office; Production dot-country contract development and deployment; Doc review; Discussions on consensus, signature scheme, and various protocol development possibilities
2023-03-09	4:45	5:15	0.5		Resolve DC config issues; Discussions regarding necessity of some functions on DC and related contracts
	11:30	12:30	1		Review .country documents, revenue accounts, multisig setup; New pricing oracle deployment and update;
	13:30	14:30	1		dot-country public facing document review, comments; Group email setup; Write architectural summary
	15:30	16:00	0.5		Manual certificate generation and debugging (Abhinav);
	16:00	16:15	0.25		Discuss cloud system setup and security (Soph)
	18:15	19:00	0.75		Adjust IAM for security review (Soph); Review certificate expiration issue (Abhinav), DNS settings, manually generate new certificates, and recommend correct setup (Abhinav)
	19:15	19:30	0.25		Review smart contract security report (Julia / Casey)
2023-03-10	0:00	1:00	1		Debugging and improving various frontend speed issues (Abhinav)
	12:15	14:00	1.75	24.5	Explorer-NFT issue Q&A (Abhinav); Certificate issues Q&A (Abhinav); Review and comment on dot-country doc and security review;
Week 98	**3/11**	**3/17**			
2023-03-11	6:00	7:00	1		Continued review and sign-off of public dot-country documents
2023-03-12	10:00	10:30	0.5		Discussion with John on dot-country launch and TODOs
2023-03-12	21:45	22:15	0.5		Instance duplication and setup for security review (Soph); PR and code refactoring re: Services (John)
2023-03-13	15:00	15:30	0.5		Sync with Abhinav on security matters
2023-03-14	12:00	13:30	1.5		Explorer contract verification issue investigation and deep diving on contract bytecodes
2023-03-14	13:30	14:00	0.5		Discussion regarding load balancer, proxies, and certificates (Soph)
2023-03-14	21:00	23:00	2		(Continued) experiments, discussions and analysis of the issues
2023-03-15	2:45	3:15	0.5		Design and discuss dot-country-manager (Alex)
2023-03-15	12:00	16:00	4		On-site discussions and Q&A
2023-03-16	1:00	3:00	2		Refine nft image generator project, fix bugs;
2023-03-16	17:00	18:30	1.5		Detailed security review and discussion (Soph)
2023-03-17	1:30	4:00	2.5		Refine nft image generator, and metadata generator, hook with ens-registrar-relayer, deploy and test
2023-03-17	11:00	12:30	1.5		Review and debug validator purchasing dot-country domain issues due to extcode checks (Max)
2023-03-17	12:45	13:45	1		Discuss and demo metadata generation flow and use of /gen api in relayer
2023-03-17	14:00	14:30	0.5		Discussion with John regarding knowledge transfer, ENS-NFT tech support, and TODOs
2023-03-17	14:45	15:15	0.5	20.5	Discussion and debugging regarding ENS contracts metadata uri, ownerOf, and reverse lookup capabilities (Artem); Review validator extcode protocol fix (Max)
Week 99	**3/18**	**3/24**			
2023-03-18	11:45	12:15	0.5		Debugging reverse record lookup issues and conjunctive use with nft metadata generator (Artem)
2023-03-18	13:00	14:00	1		Review contracts and make preparations for using USDC in burn portal
2023-03-18	15:30	16:00	0.5		Identify bugs in reverse record setup (Artem)
2023-03-18	22:30	0:00	1.5		Provide solutions for name-tokenId lookup issue; Fix bugs in RegistrarController / reverse record; Fix bugs in nft metadata generator and registrar-relay id checking; Create scripts for deploying production contracts using multisig; Deploying production contracts; Creating simpleoracle for continuously following ONE price;
2023-03-20	0:00	4:00	4		(Continued)
2023-03-20	11:30	18:00	6.5		Product launch operations and live Q&A, debugging, deployments, data re-initilization (and creating various scripts and utilities)
2023-03-21	11:30	14:00	2.5		On-site discussions regarding product launch issues, technical planning, knowledge transfer, videos, admin account security
2023-03-22	11:00	12:00	1		Launch burn portal with USDC
2023-03-23	12:30	13:30	1		Update deployment and initialization scripts for ens-deployer; Deploy using multisig
2023-03-23	14:45	15:15	0.5		(Continued)
2023-03-23	16:30	19:00	2.5		(Continued) and making contract metadata and various required components; Reinitialize data using multisig; Test results and update DC contracts using multisig

Date	Start	End	Hours	Cumulative		Description
2023-03-23	21:00	22:00	1			Switch-over contracts in live servers, production end-to-end testing and debugging, bug fixing
2023-03-23	13:00	13:30	0.5	23.0		Review and discuss knowledge transfer documents and plans (John)
Week 100	**3/25**	**3/31**				
2023-03-26	19:00	21:00	2			Setup systemd for all servers; NFT basic Q&A (Abhinav)
2023-03-27	9:30	10:00	0.5			Status summary and updates
2023-03-29	12:00	15:30	3.5			On-site discussions with team members and Q&A - knowledge transfer discussions (Julia, Sun), article revision and EAS (Abhinav), stories and AI matters (Kush), community and recovery feedback and plans (Theo), and other matters
2023-03-29	17:00	17:30	0.5			Price oracle updates, pricing schedule revision, systemd service setup, price feed debug
2023-03-29	21:30	23:30	2			Revising and deploying initial version of dot-country-manager at my.country and unwrap.country; Reconfigure domains for special purpose; Registering premium domains
2023-03-30	0:00	1:30	1.5			(Continued) and enable multiple wallets, debug and fix issues with inconsistent wagmi core versions; Improve type safety and configured lint
2023-03-30	10:30	11:00	0.5			Self-review outstanding ens-deployer, dot-country, and other repositories; Review work progress updates and documentation changes
2023-03-30	12:00	14:00	2			Review and discuss knowledge transfer, mock-based DC tests, and outstanding PRs (John); Review dot-country PR on vanity URL (#1, Tej)
2023-03-30	18:00	19:30	1.5			Review and comment on Domains Architecture article (Abhinav); Review and feedback of individuals' Q1 work
2023-03-30	21:00	22:00	1	15.0		(Continued)
			Total	109.5
